About Me

I'm a developer and analyst with a passion for building things that work. I enjoy using my skills in JavaScript and data analysis to solve real problems, whether it's creating a smoother user experience on a website, finding insights in data, or figuring out the best pricing strategy. I'm a quick learner and I thrive in teams where I can contribute and grow.

Experience

Pricing Specialist | Paykobo, Ikeja (Jan 2025 - Present)

- Analyze market trends and competitor data to help set prices that are competitive and profitable.
- Work on assessing pricing models and promotions to ensure best value for customers and the business.

Junior Intern Developer | ALL&TECH, Gbagada (2022 – 2024)

- Collaborated with senior developers to build new features, including real-time dashboards, enhancing site functionality.
- Helped troubleshoot bugs, contributing to a 10% reduction in site errors and downtime.
- Used React and Git in an agile team environment, contributing to the successful launch of 3 client websites.

Intern Data Analyst | ALL&TECH, Gbagada (2022 – 2024)

- Used Power BI to analyze and visualize business data, identifying trends that improved decision-making and boosted efficiency by 12%.
- Cleaned and prepared large datasets to ensure accuracy and completeness for management reports.
- Helped build interactive dashboards that reduced report generation time by 10%.
