## SUMMARY

---

I am a skilled product designer with two years of experience working for both startups, companies and design agencies. My expertise lies in leading and collaborating with teams to design products from ideation to launch and then managing and improving them post-launch.

I value collaboration, and thus, I work well with developers, project managers, product owners and other teams. As a leader driven by the desire to positively influence the people around me, I also double as a design tutor and member at a few known communities.

My core competencies include Product design, Visual communication, Documentation and UX research/writing. I am currently open to new opportunities where I can leverage my design skills and experience to create impactful and delightful digital products.

## WORK EXPERIENCE

---

### CORNERSTONE WEBSITE

October 2024 ~ Present | Nigeria - Remote

#### *Design Lead*

Cornerstone is a high school in the southern part of Nigeria, I led in designing a user-friendly and responsive Website for the institute, which improved their online presence and engagements.

During the course of working on this project, I conducted user research to understand target audience needs and Preference which aided in developing a visually appealing design concept that aligned with the school's brand identity.

Websites/Landing pages are very critical part of visual design especially a SCHOOL website, and as such I implemented An intuitive navigation and clear information architecture, resulting in increased website usability.

I collaborated with stakeholders to ensure the design met school's goals and expectations.

### AGRIKASUWA

January 2025 ~ Present | Nigeria - Remote

#### *Product Design Lead (Contract)*

Agrikasuwa is an Agric e-commerce platform that connects farmers directly to customers without the interference of need for a middleman. The platform aims at eliminating and cutting down inflation, giving customers access to fresh Farm produce real-time as well as transporting these products to any part of the country.

As a member of the design team, I designed user-centered e-commerce platform for agricultural products, enhancing Online shopping experience for farmers and customers..

I also ensure to develop simple and intuitive interface , streamlining **Product discovery** and **Purchase processes**. Implemented features such as products categorization, search functionality and secure payment gateways.

Conducted user testing and feedback sessions to iterate and improve design.

While working on this project, I conducted user research and analysis, UI/UX design, reviewed product responsiveness On mobile and desktop screens. These factors helped in enhancing product credibility and trust amongst users.

## **FIXITALL 24/7**

March 2025 ~ Present | Abuja, Nigeria - Remote

### ***UI/UX Designer***

**Fixitall 24/7** is a ALL IN ONE Service web application that allows users to book, request and make payments for Home and industrial services like Plumbing, Electrical repairs and fixing, Woodwork etc. This platform gives the Access to work quotation, service charge, subscription plan etc.

As the designer on this project, I brought my expertise to fore by designing an easy interface for easy service booking, Tracking, and secure payment options. I also went on to include real-time scheduling , service providers profile and Customers reviews as major features of the product and also aids in assuring clients safety.
